Thank you for participating in one of our workshops! We hope you enjoyed your experience on the streets of Rome.

To say thank you and to show our appreciation, we offer you this short list of resources compiled by the street photographer Mauro Benedetti, whose passion for photographing the Eternal City inspired the creation of Rome Photography Workshop.

Good luck with your photography and please stay in touch!

### The Photographer's Eye: Composition and Design for Better Digital Photos

by Michael Freeman

This book will be able to give you better "visual clues" when you are on assignment.

### The Street Photographer's Manual

by David Gibson

An overview of techniques.

### Learning to Photograph - Volume 1

This first volume teaches photographers the basics of camera technology, how the camera and lenses work and how these two concepts influence one another.
